

Now Available: Universal LED Exit Signs

RevLITE is launching their line of Solid State Lighting (SSL) LED Exit Signs.

These SSL exit signs feature all steel construction in a white powder coated finish. The most recent building code revisions have been taken into account with the CSA certification exceeding the latest standards. All RevLITE signs include a second sign face panel at no charge. All mounting hardware is included for surface mount; side mount and top mount installations. Utilizing the latest in LED technology the RevLITE Exit signs provide an operating life of 50,000 hours which will produce dramatic savings in maintenance costs. Coupled with a certified power consumption of only 1.2W, (one of the lowest powered exit signs on the market) your facility can also achieve dramatic energy savings.

Model 60100 Exit Sign With Battery Back up

The REVLITE battery back up exit signs is designed as a stand alone with its own built in battery affording you 3 hours of emergency exit lighting in the event of a power failure. The 60100 is also compatible for 110V, 277V and 347V installations

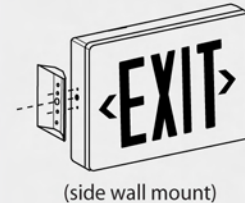

Battery Back-Up

Model 60400 Exit Sign Without Battery Back up

The REVLITE 60400 exit sign is designed for applications with emergency backup generators or an emergency DC system in place and is compatible for 110V, 277V and 347V installations.

THE ART OF MODERN LIGHTING...
